Automation Technical Support

KEY EXPECTED ACHIEVEMENTS

- Compliance of Machine technical documentation and of associated instructions
- Maintenance instructions carried out and applied.
- Existence and relevance of technical analysis, maintenance plans, and obsolescence plans.
- Efficiency of assistance interventions
- Technical parameters under control
- PDR list (definition, adaptation, optimization, cancellation)
- Improved TRS (machine availability, reliability, performance improvement)
- Lower maintenance costs (troubleshooting and preventive workload,...)
- Improvement of maintenance skills (tutoring, coaching, training materials, assistive devices for maintenance, 'one-point lessons' ...)
