

Delphi Developer

Company

The company is one of the first commercial bank within a big bank Group (2nd largest banking network in France). The company, a subsidiary of a French bank, has been founded in 2010 and counts more than 150 employees. The company acts as an IT Hub for the group, serving International subsidiaries in Asia, Pacific and Africa.

Main Objectives and Activities

One of the areas of improvement concerning the technical debt is reducing the DELPHI portfolio. A project has been initiated with the goal of re-writing part of this portfolio. In the meantime, it is important to be sure that we can maintain these applications, especially if some incompatibility arise during a Windows 10 update.

We are looking for a Delphi Developer to:

- Debug and fix DELPHI applications
- Develop new features for DELPHI applications
- Analyze Delphi code and write some documentation
- If Java skills, help Java teams on various projects (mainly webservices).

Key Responsibilities:

- Debug / Fix DELPHI applications.
- Develop features for DELPHI applications.
- Maintain the deliveries
- Explore DELPHI sources (seldom documented) to find the most recent (or same as production) ones for future recompilation.
- Analyze DELPHI sources and write documentation to help the team who re-write DELPHI applications in JAVA. Be a support to this team.
- Exchange and discuss with other IT members to gather/share information.
- If Java skills, help JAVA teams on various projects

Education

- Bachelors or Masters / University degree in related field or equivalent work experience required.

Required competencies:

- Write good documentation.
- Evaluate workload, report on project progression.
- Communication.
- DELPHI 5 or earlier. (3 or more years of experience)
- Knowledge about compatibility between DELPHI applications and Windows 10.
- Autonomy.
- Curiosity (not be scared to dig into an old, undocumented application).
- Be able to blend into a team.
- To be source of proposal.
- Rigorous.

Extra appreciated competencies:

- Java skills
- French speaking

Position type : Full time
Place of work : Bangkok, Sathorn district
Salary : Negotiable
Department/Function : Development Department
Reporting to Title : Head of Department
