Software QA Specialist

Company

BRED IT (Thailand) Ltd.is a wholly owned subsidiary of the French bank BRED Banque Populaire based out of Paris.

BRED IT was established in 2008 to become an IT hub and deliver IT operations and support for BRED Group Commercial Banks in South East Asia and Pacific Ocean areas.

Today, it supports Banque Franco Lao in Laos, BRED Bank Cambodia, BRED Bank Vanuatu, BRED Bank Solomon Islands, BRED Bank Fiji and Banque pour le commerce et l'industrie – Mer Rouge (BCIMR) in Djibouti (Africa).

BRED IT provides end to end Infrastructure and Applications management around Core Banking, Internet Banking and E-Payments.

BRED IT has also operated an offshore development center (specialized in Cobol & Java) for Paris headquarters since 2011.

We are a unique company, thanks to our identity and our history: We place our expertise at the service of BRED Group and develop our activities with an entrepreneurial structure. By putting BRED group best interests first, it allows us to deliver tailor-made solutions with high value-added.

Mission

We are looking for a Software QA Specialist to manage and perform test activities in the purpose to enhance quality of Bred IT software delivery.

In this role, you should have a strong background and experience in Software QA Testing for Core Banking systems. You should be analytical and an excellent communicator in both Thai and English languages. If you also have a business acumen and problem-solving aptitude, we'd like to meet you.

Ultimately, you will be part of building a strong test center of excellence for a major bank operating in France and in South Asia.

Responsibilities

- Analyze the customer requirement and understand functional requirements to design test cases accordingly to be executed
- Execute test cases within test plan and create test reports to describe software evaluation, testing and correction
- Create detailed, comprehensive and well-structured test plans and test cases for new or updated software projects
- Estimate, prioritize, plan, coordinate testing activities, and perform thorough testing when bugs are resolved
- Defect management: perform defect logging, follow defect life cycle and create defect reports
- Update and maintain all test artefacts within the centralized test management tool, and test assets owned by QA team
- Participate in the QA process improvement (Designing and improving QA Process)
- Preparing Summary Reports
- Work with customers at all levels of business, agility in day to day tasks, and proactively solve problems

Profile

• Bachelors or Masters / University degree in related field or equivalent work experience required.
• Must possess excellent communication skills in English (both written and oral) to be able to work with international customers (France, Laos, Cambodia ...)
• French Language is mandatory
• Education in Computer Sciences, Information Technology or any related fields.
• 4/5 years experience in developing test plans, test specifications, test cases and test data creation.
• Core banking knowledge and previous professional experience in Banking projects
• Strong knowledge of software QA methodologies, tools and processes
• Experience using a test management tool

Conditions

• Position type : Full time
• Place of work : Bangkok, Silom
• Salary : Negotiable
• Working conditions : Working conditions are normal for an office environment.
