

Project Manager (Internet/Mobile Banking)

Company

BRED IT (Thailand) Ltd. is a wholly owned subsidiary of the French bank BRED Banque Populaire based out of Paris.

BRED IT was established in 2008 to become an IT hub and deliver IT operations and support for BRED Group Commercial Banks in South East Asia and Pacific Ocean areas.

Today, it supports Banque Franco Lao in Laos, BRED Bank Cambodia, BRED Bank Vanuatu, BRED Bank Solomon Islands, BRED Bank Fiji and Banque pour le commerce et l'industrie – Mer Rouge (BCIMR) in Djibouti (Africa).

BRED IT provides end to end Infrastructure and Applications management around Core Banking, Internet Banking and E-Payments.

BRED IT has also operated an offshore development center (specialized in Cobol & Java) for Paris headquarters since 2011.

We are a unique company, thanks to our identity and our history: We place our expertise at the service of BRED Group and develop our activities with an entrepreneurial structure. By putting BRED group best interests first, it allows us to deliver tailor-made solutions with high value-added.

Mission:

We are looking for a highly motivated candidate with the skills to handle Project Management for the Digital Banking activity of BRED international subsidiaries. The Project Manager, with a good technical understanding and a knowledge of the state of the art of Digital Banking, must be able to gather requirements, write specifications and plan for implementation and deployment, in relation with the vendors. The candidate is also expected to participate to the global digital strategy of BRED international banks and contribute actively to the life of the department with management tasks.

Responsibilities

- Plan projects implementation in accordance with the banks' expectations and delivery plan.
- Monitor projects status and report the project status to the business units and the management.
- Analyze requirements from the banks, suggesting enhancement and mutualized solutions.
- Guide and support Business Analysts in SOW and detailed specifications writing
- Liaise with technical leads and architects in order to define right technical solutions
- Manage the implementation and testing activities.
- Write user guides and organize training for the banks.
- Communicate with Vendors in order to benchmark and plan project implementation.
- Participate and support the Head of department in the definition to the group strategy and roadmap.
- Maintains awareness of new and emerging technologies and industry best practices to potentially be applied in our context

Profile

- University degree in IT.
- Minimum 5 years in a similar IT position working on software developments, mobile applications developments.
- Prior experience in EDI, API integration or data movement is a strong plus.
- Excellent level in English (writing and speaking).
- Willing to work in an International environment
- Good knowledge of the digital banking industry practice and future technologies.
- Effective communication, presentation and relationship management skills to interact with Banks management, vendors and technical team.
- Strong project management methodology and organization (Agile). PMP / PRINCE II / Scrum master certification is a plus.
- Customer-centric mindset and business acumen
- Strong analytical and problem-solving skills
- Strong technical skills (SQL, Java) being able to speak with the development team and investigate deeply in the systems (database queries, technical logs review).
- Possesses general understanding in the areas of web development, application programming, mobile app development, database and system design
- Relevant technical and functional experience in the digital banking domain
- Familiar with API management (REST, SOAP, XML interfaces)
- Knowledge of Core Banking systems is a plus

Conditions

- Position type : Full time
- Place of work : Bangkok, Silom
- Salary : Negotiable
- Working conditions : Working conditions are normal for an office environment.
