RECRUITMENT AND CONSULTING

Introduction

Companies are complaining about issues and challenges to finding engineers. The future does not look to make these issues easier to manage (economic context, aging population, education reform, etc.).

This workshop proposes to review the main challenges faced by companies to find the suitable engineers to address the challenges of Thailand 4.0 and share more than 20 ways to address these challenges.

Language

English

Expected Outcomes

At the end of the session, the participants will have defined:

- Main HR issues, challenges concerning Thai engineers
- At least 20 actions that a company can do to address all these issues
- Conditions to succeed and possible Thai partners to implement these actions
- Individual action plan to address priority issues

Content

Supporting documents: participants receive a summary of education and training system in Thailand and main organizations partners

- Introduction, presentation and validation of key issues for engineers
- Small group workshop: HR issues for Engineers in Thailand/Actions to do/Conditions to succeed
